

Year 12- Literature - Unit 4

Creative Response

The success of this response depends on the care you put into planning and the commentary you provide to accompany your piece of writing. Consider the following as you approach and complete this task:

Questions to Consider

- 1. Have I explained what I am doing/have done?*
- 2. Into which section of my text does my response fit? If applicable.*
- 3. How have I interpreted the character/s I am dealing with? Have I provided evidence of this interpretation from the text?*
- 4. Which theme am I picking up from the text and how am I adapting or fitting it in?*
- 5. Am I following the genre of the original or am I changing to another form?*
- 6. What audience is my creative response being written for? (Obviously someone familiar with the text, but you may be writing for another context e.g. the 21st century)*
- 7. Am I trying to imitate the original writing style? Which features?*
- 8. How have I felt about this response?*
- 9. Has this response given me greater insight/understanding of the text and/or the writer's skill and intentions?*
